TITUSVILLE Morning Herald

Grand-Peeley.

The N. Y. Tribune thus epitomizes Grant's in-
surgency:

"We have had war—now we must have
peace. We have had a common enemy, and
the establishment of sectional hatred is foreign to us."

III. My business is to execute the law. A bad
law will always remedy itself when the people
begin to suffer from it.

IV. We have had war—now we must have
peace. We have had a common enemy, and
the establishment of sectional hatred is foreign to us."

V. Our debt is the honorable consequence of
the war. It is the price we pay for victory. Not
to pay it is only to offend treason.

VI. We must pay our debt without equivocation.

VII. We must pay our debt without equivocation.

VIII. We must pay our debt without equivocation.

VIII. America can never be great until her
name is synonymous with Financial Honor. Our
name means Liberty. It cannot also mean sub-
jection.

X. We must resume specific payments speedily;

perhaps not now, but as soon as we can."

XI. We should do unto other nations as we
would like to be done unto us.

XII. As for the Indian, conscience speaks to us.

XIII. As for the Negro—equal rights in all the
States.

XIV. And my God bless us all!"

Mr. Washburne as Secretary of State

From the Chicago Tribune

Or all of the members of the new Cabinet, Mr.

The members of the S. O. of P. T. will meet in council Friday evening, March 12th.

A gentleman of this city gives us the following care for hydrocephalus: Wash the wound with salt water, then poultice with onions, and let the patient take strong purgatives.

The first heavy rain of the season fell yesterday, accompanied with thunder and lightning, and all the gaudy evidences of a midsummer shower. It was soon followed by a short storm of unusual severity.

The Ward canances are to be held on Saturday evening at 8 o'clock. The Electors of the First Ward are to meet at Union Hall and the Electors of the Fourth Ward at the old engine house. The places of meeting in the Second and Third Wards are not yet designated.

The concert at Kerrtown on Friday evening last, gave perfect satisfaction. The audience though not large, was an appreciative one, and appeared highly entertained. Among the pieces most entertaining were the "Boat song," by some of the little girls of the place, and a sweet little song by Miss Pauline Hazard of this city, entitled "When you and I were young, Maggie." Also a duet by Miss Molly Bulkeley and Pauline. The concert is to be repeated, we believe.

The four-horse team attached to Dunham's Picassentville stage had a lively run yesterday afternoon. While descending the Magee hill, one of the fore wheels of the vehicle became detached, and the horses ran. The driver lost one of the leader's reins, and threw away the other, holding on to the wheel horses. The animals plunged along ungovernably, keeping the straight road, and dashing over the bridges at a frightful speed. There were eight passengers inside, including two ladies, one of whom fainted outright. Two men jumped from the stage outside. Finally, with the assistance of a deck passenger, the horses were brought to a stand at Archie Johnson's tavern, having run nearly one mile. Everybody was frightened, but nobody hurt.

Ward Nominations.

The proposition to erase party divisions in the approaching Charter election, and select candidates for office irrespective of their political affiliations, seems to have received the general public approbation, and if the project is carried out in the spirit in which it was conceived, it can scarcely fail to prove a public benefit. Party politics should have no recognition in the regulation of our local affairs. School legislation, public improvements, the management of the fire department and the police, should for obvious reasons be entirely exempt from such influences, and to effect that guarantee there can be no wiser precaution than that now recommended in the form of union caucuses and union nominatings.

We hope, therefore, that the proposition will be carried out in good faith by both parties; for any attempt to take advantage of such a coalition by monopolizing the offices in any ward or the benefit of either party, would be entirely contrary to the spirit of the proposition. The following communication from a Republican entirely covers the situation, and we presume its suggestions will be generally approved.

TITUSVILLE, March 10.

Messrs. Editors—Permit me to suggest that if there is to be a union of parties in the true spirit of the proposition which you published on Monday last, with numerous signatures, it should be carried out upon the plan of fairly dividing the nominations. When a Republican nominated for Councilman, let a Democrat be nominated for School Director, and vice versa; and let the remaining offices be divided in the same way. This is the true basis of Union, and honorable to both parties, and it observed in good faith, cannot fail to be generally acceptable to both parties.

FAIR PLAY.

Olive Logan's Lecture—No greater interest has been created here, incident to lecture appointments, than that inspired by Anna Dickinson and Olive Logan. In each case all the arrangements were disposed of prior to the appointments, and Miss Logan's failure to reach here on Christmas night was a source of general disappointment.

As subsequently explained, her detention was caused by a railroad accident near Elmira, but she arranged to visit Titusville and fulfill her engagement at the earliest date practicable. The lecture is fixed for Wednesday evening next, and is entitled "Paris—City of luxury." The New York Tribune gives it the following appreciative notice:

An intellectual, brilliant, handsome woman, likeable and gay, at her own desire in her own drawing-room—or for that matter in her body-suit—is delightful to see and to hear; her dresses shine in the robes of wit; tickles all that is fine in the minds and tempers of her hearers; imparts to life that glow of enthusiasm which burns like a torch; the chief of the commanding in their thoughts; and so makes them happy in oblivion of care.

The above bill is unobjectionable in every respect, and our Legislators will do well to think twice before they undertake the task of rejecting it. The bill, or one of similar character, is urgently needed, and peremptorily demanded by the producing interest to protect it against the encroachments and unjust discriminations of railroad and pipe monopolies.

Senators and Representatives from Erie, Crawford, Warren, Venango, Forest and Mercer counties, ought to take up this bill as soon as it is presented, and make it their special duty to have it acted upon favorably as early as possible.

GOLDEN WEDDING.—Mr. and Mrs. Jacob Kepler, of Venango, Crawford county, celebrated their Golden Wedding—the 50th anniversary of their wedding day—on Thursday, March 4th.

There was a large company of relatives and guests assembled. There were present 12 of their children, one being absent, 34 grandchildren, 10 being absent, making 50 grandchildren, also 2 great granddaughters were present, 19 being absent, making 29 of their immediate descendants.

Mr. Kepler is one of the oldest surviving settlers in this county—he married his present wife in 1819. Being in very poor circumstances at the time, and accumulating gradually a large family of children around him, his struggles in life were marked with the varied phases of success and adversity. However, he struggled hard and earnestly with a good heart until at length he conquered fortune and succeeded in accumulating a reasonable competency for his old age. Fifty long years of their married life have rolled around, with all the lights and shades of joy and sorrow, and they stand at the old homeestead for reunion that shall never come again. The old couple seemed quite strong and vigorous, and appeared to enjoy this celebration of their Golden Wedding with much zest.

Next in interest to the Cabinet appointments, which have so long been the subject of curiosity and speculation, were the important military nominations subsequently sent to the Senate and promptly confirmed. The advancement of Sherman to the place vacated by Grant, as General of the Armies of the United States, was, of course, expected by all, and it was looked upon as almost equally certain that Sheridan would be Sherman's successor in the Lieutenant Generalcy. The promotion of General Schofield to the vacant Major Generality was also to have been expected. General Augur takes one of the vacant brigadierships, leaving more to be filled.

No PUBLIC DOCUMENTS FOR DISTRIBUTION BY THE PRESENT CONGRESS AT PRESENT.—Members of the present Congress, (the 41st) are unable to procure public documents for distribution, among their constituents, till December next. The reason for this lies in the resolution passed by the House of Representatives of the previous Congress, on the 3d of March, 1869, as follows:

Resolved, That all books and documents ordered by the 40th Congress to be printed for distribution, and that may be ready for delivery prior to the first of December next, shall be delivered to members of the 41st Congress for that purpose.

Dr. HARRIS' LECTURE last evening, given us the auspices of the Y. M. C. A., was attended by a full audience, who were highly entertained a descriptive account of Artie life drawn from the personal observation of Dr. Hayes, the most interesting from the extemporeous and conversational style of the lecture.

Senate Standing Committee.

Johnson's Pardon Recalled.
Among the first acts of the new administration was the recall of each of the pardons of criminals undergoing punishment for offence against the Government as had not yet reached the parties to whom they were to give enlargement. Andrew Johnson ended his disgraceful career as President as some kings have begun theirs, by a jail delivery. His sympathy with those who had done injury to the Government was so strong that the rascals convicted of crimes of that sort felt quite confident that they would not languish long in prison, in many cases their confidence was well founded, and as the time within which the late occupant of the decorated White House could exercise the prerogative of pardon grew less, the pressure for his signature to "free papers" increased. Some were issued during the last hours of his administration, and the pardons had not reached those for whom they were intended when Gen. Grant was inaugurated. Such was the case with those forwarded to Marshal Murray, of New York, for the Deputy, father and son, who are in prison under sentence for defrauding the Government in the matter of liquor taxes. The District Attorney gave notice to Commissioner Roins, of the receipt of the pardons, and received Wabash telegraphed as follows:

WASHINGTON, March 6.—Robert Murray, Esq.—United States Marshals, New York City.—It is understood that the pardons have not been released, you will regard their pardons as canceled, and return the same at once to this Department.

E. B. WASHINGTON,
Secretary of State.

Commissioner Rollins telegraphed that

"If the Marshal has them, let him withhold them. The President is in earnest about this."

To prevent their escape by unauthorized action on the knowledge that pardons had been issued, warrants were made out for their arrest upon other charges pending. Notices were sent to the officers of Sing Sing Prison and Albany Penitentiary not to regard any pardons they might receive purporting to authorize the release of Eckel and Bladell, the whisky thieves who were the last to be convicted.

This prompt and decisive action gives promise of a vigorous administration, under which rascals cannot promise themselves immunity.

A NEW Pipe Bill.

From the Philadelphia Press.

The committee which was appointed at the special meeting of the Board of Managers of the Producers' Association, held in Old City on Friday last, to prepare a general bill for the transportation of Petroleum in the oil district, has reported and approved the following:

A Further Supplement: To an act entitled an act relating to corporations for Mechanical Manufacturing Mining and Quarrying purposes, approved the 18th day of July, 1869.

Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly, met, and it is hereby enacted by the authority of the same, That the provisions of an act relating to Corporations for Mechanical Manufacturing Mining and Quarrying purposes, approved the 18th day of July, 1869, and the supplements thereto, be and they are hereby enacted to provide for the transportation and storage of Petroleum in the oil districts of Venango, Warren, Forest, Crawford and Erie. That any company organized for such purpose under the provisions of said acts, shall have the right to transport, store, insure, and ship Petroleum, and for that purpose to lay down, construct and maintain pipes, tubing, tanks, offices and such other machinery, devices or arrangements as may be necessary, and to enter upon, use, and occupy such lands as may be required for the purposes of the company, and for rights of entry upon land, rights of way, and other rights necessary to the construction and maintenance of such works, and of roads of pipe and fixtures as aforesaid, they shall be entitled to all the rights and privileges and be subject to all the limitations and restrictions of railroad companies as contained in an act regulating railroad companies, approved February 13th, 1849, and the supplements thereto. Provided, however, that nothing herein contained shall be construed to authorize the building of any railroad.

That any company formed under the provisions of this act at any time change the location of the whole or any part of their pipe or otherwise, or construct or branch from any point or points on the main line thereof to any other point or place, but before doing so a majority of the Directors of the said company shall make, swear to, and acknowledge a certificate in writing in which the proper cause or location or the routes and termini of proposed branches, as the case may be, shall be particularly stated, and cause the same to be filed, deposited and recorded in the same manner as is provided in regard to the original articles of incorporation.

The above bill is unobjectionable in every respect, and our Legislators will do well to think twice before they undertake the task of rejecting it. The bill, or one of similar character, is urgently needed, and peremptorily demanded by the producing interest to protect it against the encroachments and unjust discriminations of railroad and pipe monopolies.

The Senators and Representatives from Erie, Crawford, Warren, Venango, Forest and Mercer counties, ought to take up this bill as soon as it is presented, and make it their special duty to have it acted upon favorably as early as possible.
